

Annonce: Conférences et workshop

Dans le cadre du Programme ERASMUS+ Global entre l'université Chouaïb Doukkali et l'université d'Oulu (Finlande), vous êtes invités aux conférences et un workshop de:

Pr. Satu OJALA, Université d'Oulu Finlande

Salle polyvalente de la nouvelle bibliothèque de la faculté des Sciences.

Programme

Friday 24 November 2023 (09:00-12:30)

- Introduction to University of Oulu and Erasmus+ Global programme
- Green hydrogen production via electrolysis and photocatalysis

Lecture is an introductory lecture to green hydrogen and its production using electrolysis and photocatalysis. The concepts are presented in general way, current status of technologies are given and challenges described. The lecture gives a good overview on green hydrogen production and the two methods.

Friday 24 November 2023 (14:30-18:00)

Different approaches to the sustainability

The lecture gives you an introduction to the concept of sustainability and introduces the UN sustainable development goals. The lecture introduces also three sustainability assessment methods: LCA, MCA and SAT. Exercises are planned to deepen the learning outcome of the lecture.

Saturday 25 November 2023 (09:00-18:00)

Scientific writing workshop

Scientific writing workshop introduces you to the journal article writing. It presents the concepts related to the publication, and gives you guidelines how to prepare a scientific article. Data processing / results' presentation, identification of main results, finding a suitable journal, guidelines for making a written and graphical abstract, tips for language etc. are given. You can participate with your own manuscript that can be fine-tuned during the workshop.

Les conférences et le workshop sont ouverts à tous et particulièrement aux doctorants et étudiants en master.

Pr. Rachid Brahmi

Coordonnateur scientifique local du programme ERASMUS+
